ROCKSTAR ENERGY DRINK

Empire is much more than a decal manufacturer. We produce overlays, domed decals, magnetic items, POP signage, serializing, variable data, nameplates, and many other difficult or unique printing applications you may need. We are advocates for sustainable printing and have pioneered the development of UV LED ink curing technology for screen printing. We are proud to be a certified Wisconsin Green Tier 1 company.

In our 150,000 square foot facility, Empire offers full service solutions, such as pre-press, an assortment of printing options, laminating, die-cutting, assembly, inspection, kitting, and packaging. Plus, we convert our own stock, make our own screens, manufacture dies, and build printing machinery. We are a complete source for all your printing needs.

SCREENPRINTING

- Three, six, and twelve color in-line printing presses
- Roll-to-roll screen printing
- Direct-to-screen capabilities
- UV-LED ink curing technology

GRAPHIUM & FLEXOGRAPHIC
